BE - SEMESTER-I & II(OLD) EXAMINATION - WINTER 2022 Date:03-03-2023 Subject Code:110006 **Subject Name: Elements of Mechanical Engineering** Time:10:30 AM TO 01:00 PM **Total Marks:70 Instructions:** 1. Attempt any five questions. 2. Make suitable assumptions wherever necessary. 3. Figures to the right indicate full marks. 4. Simple and non-programmable scientific calculators are allowed. An ideal gas is heated from 25°C to 145°C. The mass of gas is 2 kg. Determine 07 $\mathbf{Q.1}$ (a) (i) Specific heats (ii) change in internal energy, (iii) change in enthalpy. Assume R = 267 J/Kg K and $\gamma = 1.4$ for the gas. **(b)** Describe in brief the various non-ferrous metals along with their applications. Derive the Carnot efficiency of vapour. Draw P-V diagram for the Carnot 0.2 (a) vapour cycle With neat sketch explain the working of window Air Conditioner. **(b)** In an air standard Otto cycle the maximum and minimum temperatures are Q.3 (a)

07 07 07 07 1400°C and 15°C. The heat supplied per kg of air is 800 kJ. Calculate the compression ratio and cycle efficiency. Also calculate the ratio of maximum to minimum pressures in the cycle (b) Explain with neat figure, the construction of Cochran Boiler **07** (a) Classify heat engines and pumps. **07** 0.4 A cylinder 2 stroke engine develops 30 kW at 2500 rpm. The mean effective 07 pressure of each cylinder is 800 kPa and mechanical efficiency = 80%. Calculate brake power and mass flow rate of fuel if L/D = 1.5, Brake thermal efficiency = 28% and calorific value of fuel = 44000kJ/kg. Compare (i) Two stroke and Four stroke engine (ii) brake and clutch. **07** Q.5 (a) Derive the expression of work done by a single stage single acting **07** reciprocating air compressor neglecting clearance volume. Consider adiabatic process for expansion of air. Specify the types of centrifugal pumps and explain any one in detail. 07 0.6 (a) Classify the types of couplings and with neat figure, discuss the working of any **07** coupling of your choice. 0.7 Derive the expression for ratio of driving tensions in a flat belt drive. **07** (a)

drum. Assume C_p for material of drum as 0.84 kJ/kg K.

A steel drum weighing 20 kg contains 25 kg of water at 20°C. 0.7m³ of steam

at a pressure of 8 bar is passed into the drum. The temperature of water after mixing with the steam is 82°C. find the quality of steam passed into the steel

BE - SEMESTER-I & II(OLD) EXAMINATION - WINTER 2022 **Subject Code:110004** Date:09-03-2023 **Subject Name: Elements of Civil Engineering** Time:10:30 AM TO 01:00 PM **Total Marks:70 Instructions:** 1. Attempt any five questions. Make suitable assumptions wherever necessary. 2. Figures to the right indicate full marks. Simple and non-programmable scientific calculators are allowed. 0.1 (a) Explain role of civil engineer. 07 **(b)** Write fundamental principle of surveying. 07 (a) Enlist various instruments used in chaining and describe with sketch any two 07 $\mathbf{Q.2}$ **(b)** Enlist scheduling techniques and explain bar chart. 07 The length of a chain line when measured with a 20m chain was found to 07 Q.3 (a) be 1432 meters. But when a 30m chain which was 0.65 meter too short was used for the purpose, the line was found to be 1445 meter long. Find the error in 20m chain? (b) State and explain the components of GIS. 07 **Q.4** State various characteristics of contours in details. 07 (a) The details of observed bearings are mentioned below. Find out the included 07 angles and also correct the angles if needed to be corrected. Line BB $20^{0} 30$ $200^{0}\,00'$ AB $110^{0}\,00$ $290^{0}\,30'$ BC $195^0\,00$ $15^0 00$ CD DE $286^{\circ}30'$ $106^{0}00$ (a) Differentiate between load bearing structure and framed bearing structure. Q.5 07 (b) Enumerate various principles of planning and explain privacy and 07 Roominess in detail.

Q.6 (a) Discuss use and properties of Wrought iron.

(b) Draw the neat sketch for the following
(i) R.C.C lintel with chajja (ii) sectional plan of a ledged and battened door.

Q.7 (a) Write a short note on different ways of transportation. 07

(b) Write a short note on watershed development. 07
